THE BREWERS

"THE PASSION WITH WHICH THE BREWERY WAS FIRST CREATED HAS NEVER BEEN DILUTED; BEING AS STRONG NOW AS IT HAS EVER BEEN"

MARTIN CULLIMORE,
HEAD BREWER FOR 30 YEARS

Our Salem Bridge Brewery site houses two brewhouses. The 'Victorian Brewhouse' contains copper and wrought iron vessels, which date back to the 1800s and are still used to brew special celebration beers. Alongside, is the 'Theatre of Beers', a state of the art brewhouse built in 2003, to ensure top quality brewing and unrivalled consistency, for years to come.

The team of brewers have long and varied experience, having developed their craft over years of working alongside their predecessors, many of whom had been brewing, mashing and rousing, for up to 50 years!

It is this experience, handed down from generation to generation, which makes them real craft brewers, all of them appreciating that the brewing of quality beer is an art as well as a science.

An art which starts with the selection of only the finest malts, hops and yeast, continuing through to implementing the traditional brewing methods and finishing with the mashing and ultimately the dedicated sampling of the beer, to ensure they are of the best quality and consistency possible!

THE CLASSICS

AWARD WINNING CRAFT BEERS

Since 1874

One of the many things we are proud of at Batemans is the number of top awards we have won over the years: Campaign For Real Ale Awards, World Beer Awards, International Beer Competitions and Supermarket Gold Medals.

Triple XB has been judged Premium Beer of Britain on 5 different occasions but it's not just for Triple XB, it's for all the different styles and strengths of our beers; dark beers, porters, golden beers and multi-grain beers.

Why is this? Well we never cut corners when it comes to sourcing the very best malts and hops, not only from Lincolnshire, Yorkshire and Norfolk, but from all around the world, allowing us to brew, alongside our Classic English beers, American and Continental style beers.

We have an enormous amount of experience in brewing which goes back nearly 150 years, brewing with the same methods and in much of the original plant and by brewers who have had their skills passed down to them from generation to generation.

That's why we are regarded as Craft Brewers Since 1874!
